COP Course/Remedial Course

Progress Report -2022-23

Department - Sociology

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

COP Course/Remedial Coaching Classes

Subject: Public Administration

Progress Report: 2022-2023

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

COP Course/Remedial Course

Subject : Computer Fundamental

Progress Report: 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

COP Course/Remedial Course

Subject: Hindi

Progress Report: 2022-2023

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report for Slow learner (Remedial Course)

Academic year 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counseled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Remedial Course – Progress Report
2022-2023

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report for Slow learner (Remedial Course)

Academic year 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counseled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

In the light of new guidelines from NAAC, the department of English decided to provide remedial coaching for slow learners in academic year 2022-23. In a meeting with all faculties in the department and board of studies, a syllabus for Remedial Coaching and Screening Test was finalized. With discussion with all members in the department a proposal was forwarded to the Principal for sanction. After approval from the Principal, a screening test was scheduled on a working day to identify the slow learners. Eight students appeared for the test out of which four were identified as slow learners and others as advance learners. The remedial coaching was scheduled in the month of August, September and October.

A notice was circulated among students from the department of English. Admissions were made on first come first served basis. The necessary instructions were given to in common to all students regarding the course content and time-table.

Questions and queries raised by students were clarified. The additional workload was distributed between Dr. A. B. Shinde, Dr. N. P. Bankar, Dr. P. R. Ranshing and Ms. P. R. Ranshing. Regular classes were conducted in accordance with special time table. Attendance during the sessions was maintained by teachers.

Students' interest in learning English was growing gradually. They were encouraged for basic patterns of words and sentences. After the completion of course a test was conducted to check the progress. The improvement was noticed in overall communication of the students with special reference to basic grammar. The slow learners were hence brought in the main stream.

Hence the report.
