**Simplified Matrix Organisation in the Pharmaceutical Industry**

Project	Chemistry	Biology	Physics	Eng. Maths	Computer
Project A	→	→	→	→	→
Project B	→	→	→	→	→
Project C	→	→	→	→	→
Project D	→	→	→	→	→
Project E	→	→	→	→	→

**Why a matrix organisation?**

- pressure to share limited resources (people, scientific and technical expertise, equipment etc.)
- company requires dual output (delivery of new products + development of new skills/technologies)
- frequent external changes (uncertainty and lack of long-term stability)
