Department of History  
Value Added Course Applied History Report  
2017-18**

The history department carries out various activities every year. It will have to include the Value Added Course. The main objective of this course is to impart the knowledge of the subject along with the regular subject knowledge to the students of the department. This year we started this course from dated 21/08/2017. Its detailed report is as follows.

This course is open to any student of Arts. In this course we include mainly second year students in the department. For this, the College Development Committee and the IQAC department have fixed the admission capacity of forty students. We have prepared this course for a total of 36 hours from 21th of August to 30th of September. A total of forty students had participated in this course this year. In it we mainly teach What is applied History?, Applied history and Research on Social Science, Applied history and Present era, Cultural, Historical and Natural Monument management, Career opportunity etc.

We took a 20 mark examination of all these students on 30th September 2017 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important history is as the main subject. All the thirty students completed this course with good marks. Through this course, we teach students the importance of applied history and its overall contribution to history, what is currently happening in history writing, and other scientific research methods? This is the main purpose of this course.

In this way we successfully implemented this course in the year 2017-18. For this, the course coordinator of the history department, Dr. S. M. Wandhare worked hard. In order to make the course successful, Prof. Pankaj Jeswal, Prof. Bapu Damre helps. From time to time, Prof. Ravi Satbhai provided guidance and interaction with the new students.

In this way we try to impart knowledge in addition to the regular curriculum so that the students develop a love of history. Through this course, students have a new enthusiasm and a different satisfaction of learning something new. This course is very important from a business point of view while studying history at present. In this way the course was completed.

For your information, we are presenting the report of value added Course applied history. Thank you.

Yours Faithfully,

Dr. S. M. Wandhare

**Value Added Course in Human Rights Report**  
**2017-18**

The Political Science department carries out various activities every year. It will have to include the Value Added Course. The main objective of this course is to impart the knowledge of the subject along with the regular subject knowledge to the students of the department. This year we started this course from dated 01/08/2017. Its detailed report is as follows.

This course is open to any student of Arts. In this course we include mainly Third year students in the department. For this, the College Development Committee and the IQAC department have fixed the admission capacity of thirty students. We have prepared this course for a total of 30 hours from 01st of August to 14th of October. A total of thirty students had participated in this course this year. In it we mainly teach What is Human Rights?, Human Rights and Research on Social Science, Human Rights and Present era, Career opportunity etc.

We took a 20 mark examination of all these students on 14th of October 2017 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important Political Science is as the main subject. All the thirty students completed this course with good marks. Through this course, we teach students the importance of Human Rights and its overall contribution to Political Science, what is currently happening in Political Science writing, and other scientific research methods? This is the main purpose of this course.

In this way we successfully implemented this course in the year 2017-18. For this, the course coordinator of the Political Science department, Prof. R.E. Bharudkar worked hard. In order to make the course successful, Prof. Kadam helps & time to time provided guidance and interaction with the new students.

In this way we try to impart knowledge in addition to the regular curriculum so that the students develop a love of Political Science. Through this course, students have a new enthusiasm and a different satisfaction of learning something new. This course is very important from a business point of view while studying Political Science at present. In this way the course was completed.

For your information, we are presenting the report of value added Course in Human Rights. Thank you.

Yours Faithfully,

Prof. R.E. Bharudkar

- Q.6 Who is secretary of Gram Panchayat?
- A) Sarpanch                      B) Member of gram panchayat  
C) Gramsevak                      D) None of the above
- Q.7 ..... year Lord Ripon's resolution was passed.
- A) 1752                      B) 1882                      C) 1970                      D) 1827
- Q.8 The word administer is in the \_\_\_\_\_ language.
- A) American                      B) Latin                      C) France                      D) Indian
- Q.9 Who has come up with the POCCC approach on the scope of the public andministration.
- A) Henri Feyol                      B) Luther Gulik                      C) F.M. Nigro                      D) None of these
- Q.10 .....is known as the Father of public administration.
- A) Woodrow Wilson                      B) Taylor                      C) F.M.Marks                      D) Riggs
- Q.11 What matters is the nature of public administration.
- A) Sciences                      B) Art                      C) Philosophy                      D) All of the above
- Q.12 ..... States 14 general principles of management?
- A) Henri Fayol                      B) Herbert Simon  
C) Douglas McGregor                      D) M.P. Follett
- Q.13 Which post is made by warren histing in 1772?
- A) Superintendent of police                      B) District collector                      C) Tahsilda                      D) CEO
- Q.14 E- Governance means.
- A) Electronic governance                      B) Electrical governance  
C) Internet governance                      D) Economy Governance
- Q.15 Fundamental right indicated in article ----- to ----- in Indian constitution.
- A) 20 to 40                      B) 12 to 35                      C) 25 to 45                      D) 09 to 30

Q.16 The word recruitment is derived from the two word Rre and crescere from which language.

- A) French                      B) English                      C) Latin                      D) Spanish

Q.17 How many types are there of staff recruitment?

- A) 5                      B) 4                      C) 3                      D) 2

Q.18 Which of the following cannot be a training task?

- A) Promotion                      B) To impart knowledge  
C) Sharing experiences                      D) To develop skill

Q.19 Which country is credited with recruiting on the basis of competition in modern times?

- A) America                      B) China                      C) Persia                      D) England

Q.20 Provision of all india service is made in which article of the constitution.

- A) 112-121                      B) 305-308                      C) 121-126                      D) 308-312

Ashti, Dist:-Beed- 414203

Sub:-Proposal for value added course in Climate Change.

Respected Sir,

With reference to above subject, the department of geography wish to organize a value added course in climate change from August 2017. The course duration is of 30 clock hours spread over 10 weeks (3 days per week) course is specially designed for the U. G. students over 09 students will participate in the course. A detailed proposal is enclosed herewith this letter. We request you to kindly sanction the permission and financial support to conduct the course.

Thanking you.

for LRAE  
RH

Yours faithfully,

*Narote S. G.*  
Narote S. G.  
Dept. of Geography

## Course Proposal

Name of the course	-	Value Added course in Climate Change.
Course coordinator-		S.G.Narote.
Duration	-	3Hours per week
Target Group	-	U. G. students
Total Tenure	-	10Weeks (30 clock hours.)

- Objectives of the course :-

1. To describe how the earth climate system works.
2. To summarize general atmosphere circulation patterns , ocean circulation patterns and climate oscillations such as the El-Nino Southern Oscillation.
3. To illustrate components of the earth carbon cycle and quantitatively how addition of CO<sub>2</sub> to the atmosphere through burning fossilfuels will influence the climate.
4. To teach students the scientific basis to analyze and critique policy issues related to global warming.

- **Course Content:-**

1. Concept of Human Geography:- Meaning, Definition, Nature and Scope of Human Geography.
2. Man and Enevironment.
3. Physical and social profile of racial groups.
4. Human settlement.

  
**PRINCIPAL**  
Arts, Commerce & Science  
College, Ashti, Tal. Ashti, Dist. Beed

## B. A. Third Year

### Climate Change

#### (Value Added Course - Syllabus)

**Objectives:** This course is main objectives of to create awareness among U.G. students about basic Climate Change. Students understand the basic knowledge of subject.

Unit No.	Topic	Sub Point
I	Introduction -Climate in the Spotlight	<ul style="list-style-type: none"><li>• The Spectrum of Scientific Opinion, -Pundits , Advocates and Apocalypse,-How to Tell Science from Rubbish.</li></ul>
II	Greenhouse Gases	<ul style="list-style-type: none"><li>• The Role of Methane, -Major Uncertainties</li></ul>
III	The Earth Carbon Reservoirs	<ul style="list-style-type: none"><li>• What is Biogeochemistry?, -Why is the Atmospheric Carbon Reservoir so Small? , -Breathing of Gaia , -The Missing CO<sub>2</sub> Sink.</li></ul>
IV	Climate and Weather	<ul style="list-style-type: none"><li>• Climate and Weather: Some Definitions, -The Earth Climate Machine.</li></ul>
V	Clouds, Storms and Climate	<ul style="list-style-type: none"><li>• Cloud Formation and climate, -Hurricanes Global Warming.</li></ul>
VI	Global Ocean Circulation	<ul style="list-style-type: none"><li>• Introduction and Overview, Strawberries in Norway.</li></ul>

NB

- 1) All questions are compulsory.
- 2) All questions are equal marks.
- 3) Choose the one answer belong the following option.
- 4) All questions are objectives types.

1. Most of India's rainfall ----

(A) Cyclonic (B) Convectional (C) Elusive (D) Orographic

2. Rainfall in India is not associated with-----

(A) Orography (B) Convection (C)Cyclones (D) Anticyclones

3. The Paddy fields of India are located in the areas of annual rainfall

(A)120cm (B) 140cm (C) 100cm (D) 80cm

4. Which region gets first monsoon in summer?

(A) Himalayas (B) Western Ghats (C) Eastern Ghats (D) Gangetic Plain

5. Which one of the following is Not a Greenhouse Gas?

(A) Methane (B) Hydrogen (C) Nitrous Oxide (D) Ozone

6. Infrared Radiations Have-----Wavelength?

(A) Shorter (B) Infinite (C) Longer (D) Zero

7. The most potent Greenhouse Gas in terms of efficiency is

(A) N<sub>2</sub>O (B) C<sub>2</sub>O (C)CFC (D) CH<sub>4</sub>

8. Which is not naturally Occurring Greenhouse Gas?

(A) Nitrous Oxide (B) Methane (C) Carbon dioxide (D) Ethane

9. Which one of the following is not a greenhouse gas?

(A) Methane (B) Hudrogen (C) Nitrous (D)Ozone

10. Infrared Radiations have ----- Wavelength?  
(A) Shorter (B) Infinite (C) Longer (D) Zero
11. Which of the Following greenhouse gases is present in very high quantities?  
(A) Carbon dioxide (B) Ethane  
(C) Propane (D) Methane
12. Burning of fossil fuels results in  
(A) Increased oxygen level (B) Decreases greenhouse gases  
(C) Increased greenhouse gases (D) Increased ethane level
13. The most Potent greenhouse gas in Terms of efficiency is  
(A) N<sub>2</sub>O (B) C<sub>2</sub>O  
(C) CFC (D) CH<sub>4</sub>
14. Which is not naturally occurring greenhouse gas?  
(A) Nitrous Oxide (B) Methane (C) Carbon dioxide (D) Ethane
15. Which of the following has the highest radiative efficiency?  
(A) Sulphur hexafluoride (B) Carbon tetrachloride  
(C) CFC (D) PFTBA
16. Which Among the following compounds have the highest Gwp?  
(A) Nitrous oxide (B) Sulphur hexafluoride (C) Watervapour (D) CFC
17. Wich is a sink for carbon?  
(A) Saline water bodies (B) Old oile fields (C) Wewtlands (D) All of the above
18. Cattle farming results in which of the following greenhouse gases?  
(A) Nitrous oxide (B) Carbon monoxide (C) Methane (D) All of the above
19. The rains along the western coast of india are -----  
(A) Cyclonic (B) Convectional (C) Orographic (D) Monsoonal
20. How do dust storms in summer affect the temperature?  
(A) Increase it (B) Decrease it (C) No effect (D) Cannot say

Sub: Proposal for Value added course in "Purification Methods".

Respected Sir,

With reference to above subject, the departments of chemistry wish to organize a value added course "Purification Method" from academic year 2017-18. The Course duration is of 30 clock hours spread over 15 weeks (2 periods per week) Course is specially designed for the UG students will participate in the course. A detailed proposal is enclosed herewith this letter we request you to kindly sanction the permission and financial support to conduct course.

Thanking you.

ICAAE  
Ph

Yours Faithfully

Department of chemistry

## Course Proposal

Name of Course	Value Added Course in Purification Methods
Course coordinator	Shri. Ralebhat J.M. Shri.Kolhe S.B.
Duration	15week (Total 30 clock hours, 2 hours per week)
Eligibility	Students do this course simultaneously with graduation.
Fees	No Fee (Free)
Course Duration	2 hours per week
Target Group	B.Sc. Chemistry Student
Total tenure	15 week

### Objectives of the Course:

The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of chemistry students. The main objectives of the program are:

1. To provide students an understanding of the expectations of industry.
2. To improve employability skills of chemistry students.
3. To bridge the skill gaps and make students industry ready.
4. To provide an opportunity to students to develop inter-disciplinary skills.
5. All the final year students are participated in this value added course. This course is intended to provide advanced Chemistry aspects of Programmable. Also, features and applications of chemistry which has the ability to monitor entire system in real time also were discussed. Students participated in this value added course realized the emerging trends in industries. Topics covered in this value added course are useful in their academic curriculum also.

## Value Added Course Content (Syllabus) 2017-18

### Purification of Organic Compounds

The purification of organic compounds is necessary, though complex, step after its extraction from a natural source or synthesis in the laboratory. The method of purification of the organic compound depends mainly on the nature of the compound and the impurities present.

#### Table of Content

- Sublimation
- Crystallization
- Distillation
- Fractional Distillation
- Vacuum Distillation
- Steam Distillation
- Differential Extraction
- Chromatography

Purification means the removal of unwanted impurities present in an organic compound. The general **methods of purification** are:

- Sublimation
- Crystallization
- Distillation
- Differential Extraction
- Chromatography

#### Methods of Purification

##### Sublimation

Some solids can directly pass to the vapour state without going through the liquid phase. The purification technique which exploits this property is called sublimation. It is helpful in separating sublimable compounds from non-sublimable ones.

The substance is heated in a china dish above which an inverted funnel is kept to collect the sublimable compounds. The funnel is kept cool so as to hasten the process. Vapours of the substance solidify on the funnel.

##### Crystallization

The principle here is that the compound and the impurities have different solubilities in a solvent. A solvent is chosen where the compound to be purified is sparingly soluble, that is, it is sparingly

soluble at lower temperature and soluble at a higher temperature. The solution is heated to get a saturated solution, and on cooling, the crystals of the compounds are removed via filtration.

For example, crystals of benzoic acid can be crystallised with water. Benzoic acid is sparingly soluble in cold water and soluble in hot water.

If the mixture contains impurities that have the same solubility as of the compound to be purified, repeated crystallisation is performed.

## Purification of Liquids

### Distillation

The underlying principle behind distillation is that the mixture of liquids can be separated by the difference in their boiling points. The boiling point is defined as that temperature at which the vapour pressure of the liquid is equal to the atmospheric pressure. This method separates volatile liquids from non-volatile liquids. The setup is given below.

The mixture is taken in the RB flask and boiled. The more volatile or the component with lower boiling point evaporates faster and is collected in a separate container. A condenser is used to hasten the process of condensation.

For example, a mixture of chloroform and aniline can be separated by distillation. The boiling point of chloroform is 60°C and that of aniline is 189°C. Therefore distillation can be used to separate a mixture of chloroform and aniline.

### Fractional Distillation

This method is employed when the difference between the boiling points of the liquids isn't much. Since the vapours of such liquids might condense together, a fractionating column is fixed to the mouth of the RB.

### Vacuum Distillation

Since the boiling point is dependent on the atmospheric pressure, the liquids will boil at a temperature lesser than their boiling points if they were distilled in an atmosphere having lower pressure. This is achieved by using a vacuum pump. Since the atmospheric pressure is reduced, the liquids also boil faster and hence the whole process of distillation is made fast.

### Steam Distillation

In this variant, steam is passed into the flask containing the liquids to be separated. The principle here is that the liquids will boil faster because of aqueous tension (vapour pressure of water) helps in equalising the atmospheric pressure.

Total pressure = Aqueous tension + vapour pressure of liquid components

In the absence of aqueous tension, the process of boiling would have been continued until it equalises the atmospheric pressure. Now with the addition of steam, that process is expedited.

## Differential Extraction

This method is used for immiscible liquids, that is, liquids that do not mix together. For example, oil and water are immiscible.

The immiscible liquids are taken in a separating funnel and left undisturbed. After a while, they separate out according to their specific gravities, with the heavier liquid at the bottom. Then they are later collected.

Substances can also be separated according to their preferential solubilities in the liquid. For example, if phenol is to be extracted, it can be preferentially extracted using NaOH solution as one of the liquids used.

## Chromatography

Chromatography is an important separation technique used to separate constituent particles of a mixture of substances, to purify the compounds and check the purity of organic compounds. In this technique on a stationary phase (solid or a liquid) a mixture of substance is applied. The mixture of gas or the pure solvent is allowed to move slowly on the stationary phase. Due to which the components of the mixture start separating from one another.

Chromatography is of two types:

- Adsorption Chromatography
- Partition Chromatography

### Adsorption Chromatography

It is based on the principle that the constituents are adsorbed on an adsorbent in varying degrees. The adsorbents used are generally silica gel or alumina. When a mobile phase moves over the fixed phase, different constituents of the mixture get adsorbed at various distances over the fixed phase.

Adsorption Chromatography is further classified into:

- Column Chromatography
- Thin Layer Chromatography

### Column Chromatography

Here, a mixture is separated over a column of either silica gel or alumina, packed in a glass column. The constituent with the most affinity with the fixed phase is adsorbed at the top, and so on. It is then retrieved by using an eluant. The solvent is then evaporated to get the constituent.

## Thin Layer Chromatography

Here a sheet of alumina is taken ( 0.2 mm thick) over which a small spot of the mixture is placed and it is kept in a suitable solvent. The solvent rises due to capillary action and the constituents also rise with the solvent depending on their differential adsorption, and thereby, they are separated.

### Progress Report for Value Added Course

Academic year 2017-18

“Purification Methods”

A value added course “Purification Methods” started in the department of chemistry from academic year 2017-18. Every year 15 deserving students are admitted to course. Students participating in course are benefitted in their recruitment in chemical industry and laboratory. This course also helps them increase their awareness about pharmaceutical and chemical industrial knowledge.

In academic year 2017-18, 15 students sought admission in the course from July to October. The continued as two lectures were scheduled per week. After completion of the course certificate were issued and feedback from student was collected.

**Sub: Proposal for Value added course in “Conservation of energy”.**

Respected Sir,

With reference to above subject, the departments of Physics wish to organize a value added course “Conservation of energy” from academic year 2017-18. The Course duration is of 30 clock hours spread over 15 weeks (2 period per week) Course is specially designed for the PG students will participate in the course. A detailed proposal is enclosed herewith this letter we request you to kindly sanction the permission and financial support to conduct course.

Thanking you.

Yours Faithfully

(Prof. R.H. Karande)

## Course Proposal

Name of Course	Value Added Course in Conservation of energy
Course coordinator	Prof. Kokane C.D. Prof. Karande R.H
Duration	15 week (Total 30 clock hours, 2 hours per week)
Eligibility	Students do this course simultaneously with graduation.
Fees	No Fee (Free)
Course Duration	2 hours per week
Target Group	B.Sc. physics Student
Total tenure	15 week

### **Objectives of the Course:**

The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of physics students. The main objectives of the program are:

1. To provide students an understanding of the expectations of industry.
2. To improve employability skills of physics students.
3. To bridge the skill gaps and make students industry ready.
4. To provide an opportunity to students to develop inter-disciplinary skills.
5. All the final year students are participated in this value added course. This course is intended to provide advanced physics aspects of Programmable. Also, features and applications of chemistry which has the ability to monitor entire system in real time also were discussed. Students participated in this value added course realized the emerging trends in industries. Topics covered in this value added course are useful in their academic curriculum also.

Value Added Course - Question Paper (2017-18) B. Sc. Third Year

Name of the Paper- conservation of Energy

Time: 30 Minutes

Marks: 20

NB

- 1) All questions are compulsory.
- 2) All questions are equal marks.
- 3) Choose the one answer belong the following option.
- 4) All questions are objectives types.

1- Which of the following is a non-renewable resource?

(A) Coal (B) Forests (C) Water (D) Wildlife

2. -Which part of the solar cooker is responsible for greenhouse effect?

(A) Coating with black color inside the box (B) Mirror (C) Glass sheet (D) Outer cover of the solar cooker

3- Which is the ultimate source of energy?

(A) Water (B) Sun (C) Uranium (D) Fossil fuels

4. Mono blade horizontal axis wind turbine generator units of lower power range is

.....  
(A) 15 kW to 50 kW (B) 1.5 kW to 50 kW (C) 0.5 kW to 50 kW (D) 10.5 kW to 5 kW

5. Biogas is predominantly .....

(A) Hydrogen (B) carbon dioxide (C) carbon monoxide (D) methane

6. The tidal ranges are considered suitable for power generation is .....

(A) More than 5 m (B) less than 5 m (C) more than 0.5 m (D) none of these

7. The dry matter mass of biological material cycling in the biosphere is about

.....  
(A)  $250 \times 10^9$  t/y (B)  $25 \times 10^9$  t/y (C)  $250 \times 10^{11}$  t/y (D) ) none of these

8. The geothermal resource of the earth is estimated to be more than .....

(A)  $2.11 \times 10^{25}$  J (B)  $2.11 \times 10^{15}$  J (C)  $2.11 \times 10^{05}$  J (D) none of these

9. The average efficiency of photosynthesis conversion of solar energy into biomass energy is estimated to be

(A) 0.25 to 0.5 % (B) 5 to 10 % (C) 0.5 to 1.0 % (D) none of these

10. As per US geological survey, the entire heat content of the earth crust up to a ..... is defined as geothermal resonance.

(A) Depth of 1 km above  $15^\circ$  C (B) depth of 100 km above  $15^\circ$  C  
(C) Depth of 10 km above  $5^\circ$  C (D) depth of 10 km above  $15^\circ$  C

11. The level difference between the high and low tide is known as .....  
(A) Flood tide (B) tidal range (C) ebb (D) none of these
12. Wind turbine needs tethering control when .....  
(A) Mono blade is used (B) twin blade is used (C) both A and B (D) none of these
13. Wind turbine blade length are in the range of .....  
(A) 0.5 m to 25 m (B) 50 m to 25 m (C) 11 m to 2.5 m (D) 15 m to 25 m
14. Twin blade horizontal axis wind turbine generator unit is of .....  
(A) 3MW, 2MW and 1 MW (B) 2MW, 2MW and 3 MW (C) 1MW, 2MW and 3 MW (D) none of these
15. Wind turbine height are in the ranges of .....  
(A) 0.7 m to 70m (B) 10 m to 50m (C) 20 m to 70m (D) 30 m to 60m
16. Which of the following is a non-renewable source of energy?  
(A) Wood (B) Sun (C) Fossil fuels (D) Wind
17. Fuel used in thermal power plants is  
(A) water (B) uranium (C) biomass (D) fossil fuels
18. Favorable winds for small scale application exists .....  
(A) Everywhere on the earth surface (B) on 75% of the earth surface  
(C) On 50% of the earth surface (D) on 25% of the earth surface
19. The fixed dome type biogas plant has been adopted on a large scale in.....  
(A) china (B) India (C) US (D) none of these
20. The range of wind speed suitable for wind power generator is .....  
(A) 0 to 5 m/s (B) 5 to 25 m/s (C) 25 to 50 m/s (D) 50 to 75 m/s

DEPARTMENT OF PHYSICS

Value added course Name: - Conservation of Energy

**PROGRESS REPORT**

Academic Year -2017-18

A value added course on the conservation of energy started in the department of physics from academic year 2017-2018. There are 20 deserving students are admitted in the course. Students participated in course are benefited in the recruitment in government and private jobs. This course are also helping them to increase awareness in daily economical life.

In academic year 2017-2018 student get admitted in course. The course was started from July to October. The continued as two were scheduled per week. After completion of course certificate were issued and feedback from students was collected.

Sub: Proposal for Value added course in "Bioinstrumentation".

Respected Sir,

With reference to above subject, the departments of Zoology wish to organize a value added course "Bioinstrumentation" from academic year 2017 - 2018. The Course duration is of 30 clock hours spread over 15 weeks (2 periods per week) Course is specially designed for the UG students will participate in the course. A detailed proposal is enclosed herewith this letter we request you to kindly sanction the permission and financial support to conduct course.

Thanking you.

  
PRINCIPAL  
Arts, Commerce & Science  
College, Ashti, Tal. Ashti, Dist. Beed

Yours Faithfully

Department of Zoology

## Course Proposal

Name of Course	Value Added Course in Bioinstrumentation
Course coordinator	Shri. Khose A.B., Shri.Madake C.D.
Duration	15 week (Total 30 clock hours, 2 hours per week)
Eligibility	Students do this course simultaneously with graduation.
Fees	No Fee (Free)
Course Duration	2 hours per week
Target Group	B.Sc. Zoology Student
Total tenure	15week

### Objectives of the Course:

The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of Zoology students. The main objectives of the program are:

1. To provide them with additional knowledge along with their curriculum.
2. To create knowledge among about instrument used in biological practices.
3. To increase the research ability of student.
4. To provide an opportunity to students to develop inter-disciplinary skills.
5. To promote the student toward laboratory practices.
6. To provide platform toward industrial job opportunity.
7. To increase interests towards life science.

Arts, Commerce & Science  
College, Ashti, Tal. Ashti, Dist. Beed

## Course Content

- 1] Microscopic Technique:
  - A] Compound Microscope: Principle, Working, application
  - B] Electron Microscope: Principle, working, application.
  - C] Staining Technique: Grams staining, Acid Fast staining
- 2] Centrifuge Machine: Principle, working, Application of
  - A] Desktop Centrifuge
  - B] Cooling Centrifuge
- 3] Autoclave: Principle, working and application of Autoclave.
- 4] Hot Air Oven: Principle, working and Application of Oven
- 5] Digital PH meter: working and application.
- 6] Laminar Air Flow: Principle, working and application of LAF.
- 7] Digital Colorimeter: Principle, working and application.
- 8] BOD Incubator: Principle, working and application

## Progress Report

Value Added Course 2017-2018

“Cultivation of Oyster Mushroom”

Subject : Botany

Identified value added separate coaching their progress was checked by a test maximum student improvement. Some student entering to the UG course didn't have sufficient Oyster Mushroom Cultivation knowledge.

Free information for students to start their own business due to mushroom cultivation. Received student were happy to learn something new. This course was fruitful to them throughout.

(2017-2018)

Respected Sir,

With reference to above subject, the departments of Mathematics wish to organize a Value added course "Vedic Mathematics" from academic year 2017-18. The course duration is 30 clock hours (2 hrs per Week). Course is specially designed for the UG students. B.Sc T.Y. Students will participate in the course. A detailed proposal is enclosed herewith this letter. we request you to kindly sanction the permission to conduct course.

Thank you.

For IQAE  
sh

Yours Faithfully

*Bakaly*

Department of Mathematics

### Course Proposal:

Name of Course	Value added Course in Vedic Mathematics
Course coordinator	Prof. Ukale B.S.
Duration	30 Clocks Hours
Eligibility	Students do this course simultaneously with graduation.
Fees	No Fee (Free)
Course Duration	2 hours per week
Target Group	B.Sc. T.Y. Student

### Objectives of the Course:

The Certificate Course aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of students. The main objectives of the program are:

1. To provide them with additional knowledge along with their curriculum.
2. To create knowledge among about Vedic math.
3. It helps to solve mathematical problem many time faster.
4. To provide an opportunity to students to developed skills.
5. To provide platform toward job opportunity.

Department of Mathematics

Value Added course in Vedic mathematics

Syllabus (2017-2018)

### ***Part-I vedic Algebra***

#### **Unit – 1 Multiplication:**

- Ekadhikenpurven method [multiplication of two numbers of two digits]
- Eknunenpurven method [multiplication of two numbers of three digits]
- Urdhvatiragbhyam method [multiplication of two numbers of three digits]
- Nikhilam Navtashchramam Dashtaha [multiplication of two numbers of three digits]
- Combined Operations

#### **Unit-2 Division and Divisibility:**

##### Part A- Division

- Nikhilam Navtashchramam Dashtaha [two digit divisor]
- Paravartya Yojyet method [three digit divisor]

##### Part B- Divisibility

- Ekadhikenpurven method [two digit divisor]
- Eknunenpurven method [two digit divisor]

#### **Unit- 3 LCM and HCF**

#### **Unit-4 Power and Root**

Power: 1) square [two digit number] 2) cube [two digit number]

Root: 1) square root (four digit number) 2) Cube root (six digit number)

Arts, Commerce & Science  
College, Ashti, Tal. Ashti, Dist. Beed

### **Unit 5: Contribution of Indian Mathematician**

- Aryabhata
- Brahmagupt
- Mahaveeracharya
- Bharti Krish

#### *Part –II Vedic Geometry*

### **Unit- 1 concept of Bhaudhayana Nmbers [BN]**

- BN of angle
- Multiplication of Constant in a BN
- BN of complementary angles
- BN of sum and difference ( $\alpha + \beta$ ) of an angel
- BN of half angle.

### **Unit-2 Trigonometry**

- Definition of trigonometric ratio
  - Trigonometric identities
- Unit- 3 Co-ordinate Geometry
- Different form of straight line

### **Unit3 Complex Numbers**

Multiplication, Division and square root

### **Unit-4 Contribution of Bharatiya mathematician**

- 
- Bhaskaracharya
- Madhavan
- Parmeshvaran
- Baudhayana

### Progress-Report

2017 - 2018

A value added course on Vedic Mathematics started in Department of mathematics from Academic year 2017-18. There are 16 deserving students are admitted to course. Student participating in course are benefitted in their recruitment in government and private jobs. This course is also helping them increase awareness in daily economical life.

In academic year 2017-18, 16 students get admitted in course. The course was started from July to October. The continued as two were scheduled per week. After completion of course certificate were issued and feedback from students was collected.

### Analysis Report

Feedback on Value Added Course: 2017-2018  
Students

Name of the Students:

Class:

Subject: - Mathematics

Sr. No	Index	Strongly agree	Agree	Partially agree	Disagree	Strongly disagree
01	Current syllabus is good for skill development and employability	90%	10%	00%	00%	00%
02	It increases social awareness, moral values and ethics	90%	10%	00%	00%	00%
03	It inculcates thirst for learning and helps in overall personality development	80%	20%	00%	00%	00%
04	It fulfills the demands of higher education	70%	20%	10%	00%	00%
05	It promotes environmental awareness and cultural harmony	70%	20%	10%	00%	00%
06	Its objectives are clearly achieved	80%	20%	00%	00%	00%
07	It has relevance with present social scenario	90%	10%	00%	00%	00%
08	It promotes research ability	95%	05%	00%	00%	00%

Action taken :- Students are seen not happy enough regarding the objectives of the course. The subject teacher must mention the objectives and do the needful to achieve the objectives clearly.
