Bridge Course Report
2016-2017

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 01/08/2016. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the B.Sc. and have not had chemistry as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Science and whose chemistry was not the subject. We have prepared this course for a total of 16 hours from 01st of August to 02nd of October. A total of 09 students had participated in this course this year. In it we mainly teach the basics of chemistry. That every chemistry student should know. Accordingly, we explained to the students what is meant by chemistry, its nature, scope, importance, and need for chemistry. Study, chemistry and other science also industrial opportunities in chemistry etc. We took a 20 mark examination of all these students on 03rd October 2016 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important chemistry is as the main subject. All the 09 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to chemistry and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of chemistry. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2016-17. For this, the course coordinator of the chemistry department, Prof. J. M. Ralebhat worked hard. In order to make the course successful, Prof. S.B.Kolhe helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the chemistry family was created in them. He got basic knowledge of chemistry through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

Yours Faithfully,

Prof. Ralebhat J.M.
