Bridge Course Report
2017-2018

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 01/08/2017. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the B.Sc. and have not had chemistry as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Science and whose chemistry was not the subject. We have prepared this course for a total of 16 hours from 01st of August to 09th of October. A total of 11 students had participated in this course this year. In it we mainly teach the basics of chemistry. That every chemistry student should know. Accordingly, we explained to the students what is meant by chemistry, its nature, scope, importance, and need for chemistry. Study of chemistry and other science also industrial opportunities in chemistry etc. We took a 20 mark examination of all these students on 10th October 2017 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important chemistry is as the main subject. All the 11 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to chemistry and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of chemistry. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2017-18. For this, the course coordinator of the chemistry department, Prof. J. M. Ralebhat worked hard. In order to make the course successful, Prof. S.B.Kolhe helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the chemistry family was created in them. He got basic knowledge of chemistry through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

Yours Faithfully,

Prof. Ralebhat J.M.

Bridge Course Report
2017-18**

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from July, 03rd 2017. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the department and have not had history as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Arts and whose history was not the subject. We have prepared this course for a total of 36 hours from 04th of July to 11th of August. A total of thirty students had participated in this course this year. In it we mainly teach the basics of history that every history student should know. Accordingly, we explained to the students what history is, its nature, scope, importance, need for history study, history and other sciences, business opportunities in history, etc. We took a 20 mark examination of all these students on 12th August 2017 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important history is as the main subject. All the thirty students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to history, and brought them into the main stream by guiding them through this bridging course on how to gain momentum in the study of history. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2017-18. For this, the course coordinator of the history department, Prof. Ravi Satbhai worked hard. In order to make the course successful, Prof. Pankaj Jeswal, Prof. Bapu Damre helps. From time to time, Dr. Sakharam Wandhare provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the history family was created in them. He got basic knowledge of history through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

Bridge Course Report
2017-2018**

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 02/08/2017. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the department and have not had history as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Arts and whose Pol. Science was not the subject. We have prepared this course for a total of 16 hours from 02th of August to 06th of Sept. A total of 18 students had participated in this course this year. In it we mainly teach the basics of Pol. Sci. that every Pol. Sci. student should know. Accordingly, we explained to the students what Pol. Sci. is, its nature, scope, importance, need for Pol. Sci. study, Pol. Sci. and other sciences, business opportunities in Pol. Sci. etc. We took a 20 mark examination of all these students on 06th Sept. 2017 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important Pol. Sci. is as the main subject. All the 18 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to Pol. Sci., and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of Pol. Science. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2017-18. For this, the course coordinator of the Pol. Science department, Prof. R.E. Bharudkar worked hard. In order to make the course successful, Prof. V.B. Kadam helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the Political Science family was created in them. He got basic knowledge of Political Science through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

Yours Faithfully,
