Bridge Course Report
2019-2020

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 05/08/2019. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the B.Sc. and have not had chemistry as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Science and whose chemistry was not the subject. We have prepared this course for a total of 16 hours from 05th of August to 16th of October. A total of 04 students had participated in this course this year. In it we mainly teach the basics of chemistry. That every chemistry student should know. Accordingly, we explained to the students what is meant by chemistry, its nature, scope, importance, and need for chemistry. Study of chemistry and other science also industrial opportunities in chemistry etc. We took a 20 mark examination of all these students on 17th October 2019 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important chemistry is as the main subject. All the 04 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to chemistry and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of chemistry. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2019-20. For this, the course coordinator of the chemistry department, Prof. J. M. Ralebhat worked hard. In order to make the course successful, Prof. S.B.Kolhe helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the chemistry family was created in them. He got basic knowledge of chemistry through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

We have started this course in the department for those who have entered the first year of the department and have not had history as a subject before. All the thirty students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to history, and brought them into the main stream by guiding them through this bridging course on how to gain momentum in the study of history. This is the main purpose of this course.
