Intake Capacity	As per Student Requirements/ According to Student Needs.

Education is primarily conceived by students as one simple remembering fact by rote. However, Hindi educational so requires clear understanding of thinking or a constructive thinking by students. We all know that the students seeking admission in an undergraduate course have passed their 10+2 in all stream but it was felt that a student joining the course 10+2 require re-enforcement of fundamental Hindi concepts i.e.

The course F.Y. B.A. contains the subjects which require knowledge of basic Hindi. To support the students, gain better understanding. Department of Hindi decided to initiate the task of development of bridge courses. This bridge course aims to accelerate the student's knowledge in the subjects of acquired at 10+2 level; and also bridge the gap between the school level syllabus and the level needed to understand concepts of hindi. This bridge course will help students to study the basic concept in Hindi easily and very well.

**2022-2023**

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 18/07/2022. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the department and have not had history as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Arts and whose Pol.Science was not the subject. We have prepared this course for a total of 16 hours from 18th of July to 24th of August. A total of 20 students had participated in this course this year. In it we mainly teach the basics of Pol. Sci. that every Pol. Sci. student should know. Accordingly, we explained to the students what Pol. Sci. is, its nature, scope, importance, need for Pol. Sci. study, Pol. Sci. and other sciences, business opportunities in Pol. Sci. etc. We took a 20 mark examination of all these students on 24th August 2022 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important Pol. Sci. is as the main subject. All the 20 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to Pol. Sci., and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of Pol. Science. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2022-23. For this, the course coordinator of the Pol. Science department, Prof. R.E. Bharudkar worked hard. In order to make the course successful, Dr. Prakash Hambarde, Prof. Zine P.J. helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the Political Science family was created in them. He got basic knowledge of Political Science through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

**2022-2023**

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated 06/09/2022. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the B.Sc. and have not had chemistry as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Science and whose chemistry was not the subject. We have prepared this course for a total of 16 hours from 06<sup>th</sup> of September to 11<sup>th</sup> of November 2022. A total of 02 students had participated in this course this year. In it we mainly teach the basics of chemistry. That every chemistry student should know. Accordingly, we explained to the students what is meant by chemistry, its nature, scope, importance, and need for chemistry. Study of chemistry and other science also industrial opportunities in chemistry etc. We took 20 mark examinations of all these students on 12<sup>th</sup> November 2022 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important chemistry is as the main subject. All the 02 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to chemistry and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of chemistry. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2022-23. For this, the course coordinator of the chemistry department, Prof. J. M. Ralebhat worked hard. In order to make the course successful, Prof. S.B. Kolhe helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the chemistry family was created in them. He got basic knowledge of chemistry through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

**Bridge Course Report**  
**2022-2023**

Every year at the beginning of the new academic year, we organize bridge courses on behalf of our department for the students from another faculty. This year also we started this course from dated / /2022. Its detailed report is as follows.

We have started this course in the department for those who have entered the first year of the B.Sc. and have not had Zoology as a subject before. For this, we selected students in class XII who did not belong to the Faculty of Science and whose Zoology was not the subject. We have prepared this course for a total of 16 hours from 10<sup>th</sup> of October to 15<sup>th</sup> of December. A total of 06 students had participated in this course this year. In it we mainly teach the basics of Zoology. That every Zoology student should know. Accordingly, we explained to the students what is meant by Zoology, its nature, scope, importance, and need for Zoology. Study of Zoology and other science also industrial opportunities in Zoology etc. We took 20 mark examinations of all these students on 16<sup>th</sup> December 2022 and based on that we tested the basic knowledge of the students and through this course we proved to the students how important Zoology is as the main subject. All the 02 students completed this course with good marks. Through this course, we paved the way for those who were not previously subject to Zoology and brought them into the mainstream by guiding them through this bridging course on how to gain momentum in the study of Zoology. This is the main purpose of this course.

In this way we successfully implemented this course in the year 2022-23. For this, the course coordinator of the Zoology department, Prof. A.B. Khose worked hard. In order to make the course successful, Prof. C. D. Madake helps and time to time provided guidance and interaction with the new students.

Through this course, the mental strength of other faculty students was raised and the joy and excitement of participating in the Zoology family was created in them. He got basic knowledge of Zoology through this course. In this way the course was completed.

For your information, we are presenting the report of Bridge Course. Thank you.

Yours Faithfully,
