student mentoring report 2017-18

All mentee students were asked some fixed questions from questionnaires, so as to check their family background, financial status and social strata. They were individually asked more questions and provided with necessary help. As a mentor, I shared my own experiences in college days with all mentee students so as to boost their confidence. Some students who performed well in dance elocution and poetry recitation competition were acknowledged and appreciated. Some girl students who were not ready to participate were provided with a special counselling. I personally tried to know about their lifetime goals and dreams. I could pay a visit to their homes who invited me. felt happy to meet their parents.

- Total mentee = 35
- Counselling = 30
- visited homes = 04
- Acknowledgment = 02
- for success
- financial help = 01

student mentoring report 2018

All mentee students were invited for a meeting in college. After their classes they were asked to gather in the auditorium. They were encouraged to speak frankly and share their idea, views, values, passions and career options. They hesitated to speak initially but after insistence they came up one by one to the stage. Their performance as a speaker was good enough and to my surprise they shared very good ideas of social reformation. Some mentee students invited me for their village fare and I attended it. I could also make my way to the temples and other historical places of the town. Three students were provided with financial help secretly.

Total mentee: 33

financial help: 03

A brief Annual Report of Student Mentoring

As per the policy of the IQAC mentors were allotted certain students as mentee. In the beginning of the academic year we form what's app group of all mentee. All necessary notices, university circular and necessary common information are shared on the group. Students have personal communication also as a mentor and a teacher we know the details of mentee students as their family back ground, financial status and career perspectives.

We provide career guidance and other co-curricular help commonly but individually we make direct approach to their personal family and financial problems. We provide personal help to needy and deserving students. We also support them by forwarding necessary study material other than syllabus.

This year 2018-19 out of 05, I could help 01 students paying for their exam fees and 01 students were given personal counseling.
