## **Progress Report**

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.
