COP Course/Remedial Coaching Classes

Subject: Public Administration

Progress Report: 2022-2023

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

PROGRESS REPORT

Subject: Physics

Academic Year- 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report for Slow learner (Remedial Course)

Academic year 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counseled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. I identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

COP Course/Remedial Course

Subject: Computer Application

Progress Report: 2023-24

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

PROGRESS REPORT

Subject: Mathematics

Academic Year- 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

Progress Report for Slow learner (Remedial Course)

Academic year 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counseled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the UG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.

COP Course/Remedial Course

Progress Report: 2022-23

Identified slow learners were given separate remedial coaching. After the same, their progress was checked by a test. Maximum students showed improvement. These who could not show remarkable progress were counselled individually. Remedial teaching to slow learners brought them in the main stream.

Remedial teaching thus proved fruitful. Identification of slow learners is the main concern. Some students entering to the PG course didn't have sufficient basic knowledge of the subject. This course was fruitful to them throughout.
