We received a warm welcome in company and Mr. Sharma took us to the raw material like iron, copper and steel. We visited cutting machine, hammering machine, designer machine, casting machine and learnt the processing. With the help of sea sand and mud brackets are made. Computerized system is followed throughout. For the security of employees they are provided with goggles, helmet and hand gloves. The company supplies spare parts to reputed companies like Tata and Kinetic Bajaj etc. There are about 85 companies importing spare parts from L&T.

Students were happy to see working of company. There were 40 students and 6 professors on the tour. Some students asked their queries and doubts which were clarified by the staff.

We bid a farewell in the afternoon at 05.00 pm. Students were satisfied to witness the actual implementation of knowledge and employment.
